

# All Knowledge to the People!

At Eternal Summer of the Black Feminist Mind we believe that education is eternal when it is accountable to communities and community supported. We ask that each School of Our Lorde Participant ask at least 7 of their loved ones or community members to support their participation at the level that they can. Our goal is for each participant to raise between \$50-\$200 for each unit. You can also contribute a scholarship named after a loved one towards someone else's participation.
